

Below is a set of temporary rules which will apply to all members Please read and for the safety of all members please follow these rules.

Members and their immediate families may visit the site.

Members of the public and non-family members are strictly prohibited from visiting.

Site Entrance, main gate should be kept closed at all time to discourage entrance by unauthorized visitors. The gate can be kept closed by wedging gate closed with traffic cone. Please ensure gate is closed after entering or leaving site

There must be a minimum of two people on site during any visits.

Members choosing to visit the site will be expected to follow social distancing rules and to respect other members' space.

The clubhouse will be open for access to the toilets and hand washing facilities only, the kitchen will be out of bounds, the hot water boiler has been drained and shutdown. To maintain the social distancing only one person is allowed into the clubhouse at any one time. The Club will not provide fabric towels, hand sanitiser, face masks, any other food or drink including milk.

Food and refreshments, members should be totally self sufficient e.g. packed lunch and bring their own drinks or flask of hot water tea, milk and cutlery. All food waste and packaging must be taken away.

The Club will provide hot water for hand washing, soap, paper towels, disinfectant spray for worktops etc.

Workshop Facility in view of the difficulty of maintaining social distancing in this area, no access will be permitted for project work. Access for maintenance tools for use on site will be permitted.

PPE (personnel Protective Equipment) members should bring their own equipment as they see fit, gloves would be see as a minimum precaution.

Some members are likely to need boiler and / or steam tests. A time will be arranged with our boiler inspectors when they will be on site and members can arrange a visiting time. Members should however be reminded to have boiler ready for testing with all suitable plugs fitted ready for test, to minimise time required if there are a number of boilers to be tested.

It is proposed to open the Club on Sunday, Tuesday and Thursday so that members can visit on any two of these days, this is to help level the number of members on site to help with Social Distancing.

Members should not visit the site if they are feeling unwell or have not quarantined themselves for 14 days if they have been in contact with someone with the virus or have had the virus.

Stage 1 will commence from Tuesday 2nd June.

Stage 2

As government guide lines are revised, revisions will be made to proceed to the next stage to allow the use of other facilities on site.

We will issue an update on those facilities with timing in due course.

Stage 3

To open up the site and all facilities

Date to be confirmed.
